Recruitment & Selection – 2 Hour Facilitated Training Session

About the Session

High performance is all about the right people in the right jobs with the right support. This session has been developed as a value added service to APRG clients, to assist hiring managers to select the right people for the right jobs.

It covers selection basics including job analysis, understanding the key components of job descriptions, selecting assessment tools and structuring interviews. It also provides a brief overview of legislation to be aware of and offers some general tips when recruiting.

The session is designed to be both informative and interactive in sharing experiences. It is recommended for group sizes as small as three and not larger than eight.
